SUMMARY

Currently studying at Bilkent University Faculty of Design Art and Architecture as a second-year student. Developed an interest in technical drawing and interior designs (specifically company designs). Additionally, progressing interest in the software industry. Also working on current business plans and their future developments.

Apart from my current education, playing tennis as a hobby, interested in current political history, striving to learn more about different business domains. Ability to easily deal with and solve any problems that may be encountered in the workplace.
